It is the responsibility of the person who is hiring this Bouncy Castle to ensure that all possible steps are taken to avoid injury or damage to the bouncy castle. The person who has signed the below contract is responsible for any damage or loss, through theft or otherwise:

Please ensure that the following Safety Instructions for set up are followed:

1. Ensure that an area of 6 feet (2 meters) around the unit is completely clear.
2. **Do not allow anyone to be on the Bouncy Castle during inflation or deflation as this is dangerous and can cause damage to the castle.**
3. If the Bouncy Castle is not being used for any part of the day, please switch the blower off at the Mains
4. In the event of heavy rain, it is strongly recommended that the Bouncy Castle be switched off. Any wetness, including bubbling (which is normal) can be dried with a towel.

The blower has a safety reset button, try pressing this, also check the fuses and make sure the blower tube or deflation tube has not come undone or something has not blown onto and is obstructing the blower. In the event that it overheats, or loses power, switch the blower off at the mains, then switch it back on again 1 or 2 minutes later, and it should restart. If it does not restart please inform us straight away.
6. Please do not drag the inflatable (inflated or deflated) across rough surfaces e.g. concrete, gravel.
